**The importance of protection**  
The life insurance and protection need

Discussing your protection needs can be one of the most important things you ever do.

We insure our homes and our cars but many of us take very little time to discuss insuring our most valuable asset – ourselves.

Consider: the car worth £15,000 is insured for £40 per month. The mobile phone worth £800 is insured for £5 per month. The home is insured against fire or burglary for £30 per month. That is £75 per month in total for objects we own, yet two parents bringing £50,000 per year into the home or £1,000,000 over a 25-year mortgage are insured for... what exactly?

When looking at your household situation, ask yourself the following questions: are there any situations that could prevent me from supporting my home and my family? If there are, ask yourself, how would I cope if that situation lasted for 25 or 40 years?

**We make a promise to you at Community Mortgage Services – we will not charge you a broker fee for getting protection advice and we will not advise you to take out protection you do not need. We are here to give a human touch to your protection needs!**

#### **Why use an insurance expert?**

Many people turn to comparison sites to look for the cheapest insurance, but that is not always the best way and people can often end up with policies that do not cover them for what they want or need. After all, most people are not experts in protection.

Getting expert guidance does not have to cost you more: like comparison sites, Community Mortgage Services gets paid commission by the insurance provider. However, unlike comparison sites we recommend and advise you on the products that best suit your needs. We can help you do the following:

**Find the right product:** we will ask you about your personal circumstances to find you the right policy. We will assess what cover you already have so you do not overlap insurances.

**Get a great deal:** we will get you a good deal by comparing prices and product features.

**Find a specialist provider:** on comparison sites you might not find cover for things like income protection or critical illness – that need to be tailored to suit you. You also may not find specialist or bespoke cover.
